

Statement of Intent

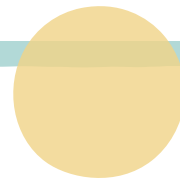

What is our Curriculum?

Our curriculum reflects what we believe in, the things that matter to us, and what we aim to achieve. We believe that by creating a positive, welcoming environment where pupils feel safe, valued, and happy, we ensure everyone can access learning effectively.

Our curriculum is designed to be broad, balanced, creative, and tailored to the needs of all our learners. We focus on their stages of development, abilities, and interests, ensuring that every pupil has the chance to grow and thrive. It's planned carefully to support success with the right level of support and challenge and exciting opportunities to learn.

At Sea View, we place learners at the centre of their learning. We believe creative, independent thinking is key to becoming lifelong learners. By fostering these skills, we prepare our learners to face a world that is always changing and to meet the future with confidence.

Why do we teach our curriculum?

We teach our curriculum to help every member of our school community—pupils, staff, and families—be the best they can be. Our school is in the heart of the community, and we're proud to work together, caring, sharing, and learning as one.

We aim to provide more than education. We are a safe and inclusive school where everyone feels welcome and supported. We celebrate the diversity within our school, and we make sure every pupil feels valued and able to succeed.

At Sea View, we believe in nurturing positive attitudes toward learning and giving every pupil the tools to achieve their potential.

How do we teach it?

We bring learning to life with exciting, real-world connections. Lessons are planned to spark curiosity, inspire creativity, and encourage pupils to think for themselves.

Our teachers create a safe and inspiring space where learners are encouraged to explore, take risks, and grow. Every pupil is supported to develop the skills they need for a bright future, whatever it may hold. We offer high levels of care, support, and challenge to ensure every pupil can thrive.

We celebrate success, value effort, and foster a love of learning in every pupil. By promoting creativity, independence, and resilience, we prepare our pupils for a lifetime of learning and discovery.
